SO ORDERED.

JENNIFER LUU,

Jennifer H. Rearden
 Jennifer H. Rearden, U.S.D.J.
 Dated: February 5, 2025

Plaintiff,

-against-

MOTION TO REOPEN

BLUESTAR ALLIANCE LLC

Defendant.

Many egregious acts of retaliation have been committed against myself and my family. They have attempted murder through multiple formats:

The CEO had a Jeep rammed into the back of our family vehicle while I was pregnant on 9.26.2022

When I purchased a vehicle, it immediately began having issues

- a. Car screen bounced uncontrollably as I was driving in an attempt to cause another accident
- b. One week after another, we would get nails in our tires, two separate vehicles (one even got 7 nails in it)
- c. One afternoon when I was alone at home with the baby, there was a seismic BOOM. The garage had been entered into and the tension cord had been cut.
- d. Both front tires were overinflated by 7 psi in an attempt to cause another accident

The COO is a persistent stalker and predator.

- a. I paid \$100,000 for a country club membership but the payment kept getting rejected and redirected
- b. I was bombarded with numerous text messages week after week that I was unable to block because the phone numbers kept changing beginning in February 2022 in a phishing campaign
- c. I was made to believe that he wanted to purchase a property for myself and that I had no option but to continue looking or accept or else I/we would face further harassment

There have been many threats of death, imprisonment and retaliation for taking any course of action. The disability caused me such emotional turmoil, I felt compelled to withdraw.
